

Asia Greens

Leaf Mustard

Brassica juncea (L.) Czern.

AGANO

- ▶ deeply notched leaf mustard
- ▶ light red coloured leaves form a contrast to the white-green leaf stems
- ▶ brings colour and structure into salad mixtures
- ▶ very good shelf life
- ▶ medium hot mustard flavour

Agano

FRIZZY LIZZY

- ▶ highly fringed, red-leaved variety
- ▶ due to the three-dimensional growth, salad mixtures obtain a full volume
- ▶ attractive new selection

Frizzy Lizzy

FRIZZY JOE

- ▶ light green coloured leaf mustard with a pleasantly mild mustard flavour
- ▶ the attractive looking, strongly sinuated and feathered leaf brings a lot of volume into salad mixtures

Frizzy Joe

BLOODY MARY

- ▶ leaf mustard with bright red coloured leaf blades and light green contrasting leaf stems
- ▶ very good colour characteristics, also in poor light conditions

Bloody Mary

Mizuna

Brassica rapa var. *japonica*

MANDOVI

- ▶ lasting, reliable variety with high yields
- ▶ notched, glossy green leaf blades with slender, white stems
- ▶ mildly spicy mustard flavour
- ▶ unsusceptible to climatic conditions

Mandovi

ARUN

- ▶ red-leaved selection
- ▶ spatula-formed, slightly serrated leaves
- ▶ light mustard flavour

Arun

Pak Choi

Brassica rapa subsp. *chinensis* (L.) Hanelt

ARAX

- ▶ improved, intensely red leaf colour
- ▶ light green, short leaf stem
- ▶ stable, slightly arched leaf

Arax

SAGAMI

- ▶ variety with flat-broad, white stems and dark green, high round leaves
- ▶ mild mustard flavour
- ▶ very upright growth

Sagami

Red Beet

Beta vulgaris L. var. *conditiva* Alef.

BULL'S BLOOD

- ▶ bright wine red leaves, which provide every mixture with colourful accents
- ▶ high light intensities, low night temperatures and slow cultivation increase colour characteristics
- ▶ mild flavour

Bull's Blood

Swiss Chard

Beta vulgaris L. var. *vulgaris*

RHUBARB CHARD

- ▶ upright growing Swiss chard with bright red stems for babyleaf production
- ▶ fresh green, shiny leaves

Rhubarb Chard

Tatsoi

Brassica rapa var. *rosularis*

TAMA

- ▶ glossy, dark green selection with spoon-shaped, even-edged leaves on short stems
- ▶ reliable, well-tried variety

Tama
