

Bulb Fennel

FINALE

- ▶ this breed produces high-round, firm, heavy and very uniform-sized bulbs
- ▶ the excellent robustness against bolting allows for production during the entire open field season
- ▶ the medium green foliage grows upright and stays healthy for a long time
- ▶ direct sowing possible from (June –) July for harvest in September – October

Peas

Wrinkled Pea

KARINA

- ▶ dark green wrinkled pea with a high and stable yield
- ▶ standard variety for early sowings
- ▶ the plants have a high stableness and can be harvested easily, the seeds are very uniformly coloured

Karina

Sugar Pea

NORLI

- ▶ very early, medium green variety, vigorous growth, stable, approx. 50 cm high, pods have no bast fibres
- ▶ very sweet

Norli
